

TV Shows by Level

How to use this:

- Choose a TV show that you understand **70%-90%** of. If you only understand 50%, it's too hard, and you won't learn much. If you understand 95%-100%, it's too easy, and you won't learn much.
 - Try different TV shows from different levels until you find one that is good for you
- Focus on listening to what they say. You can turn the subtitles on to read it too.
 - Watch it a second time without subtitles and learn more
 - Try to guess the meanings of words from the context. Only search for around 5-6 new words every 5 minutes. Don't look up every new word.
- For many of these, there are free versions on YouTube. They have automatic subtitles so they are correct 95% of the time. If you want perfect subtitles, you can pay for the official ones on YouTube. You can also buy many of them on Amazon Prime or watch them on Netflix.
- When you learn a new language, you become a child in that language, so it is good to watch children's TV shows at the beginning. When you learn more, *you'll move to adult TV shows.*

Intermediate

- Different short videos with the words written (transcripts) and questions to see if you understood the video
